SUMMARY

- Software Developer with 5+ years of IT experience in Analysis, Architecture, Design, Development, Testing, and implementation of various client-side applications.
- Strong experience in front-end technologies i.e., HTML5, CSS3, and responsive design principles and expertise in JavaScript/Typescript, ReactJS, React Hooks, React-Native, Redux, Axios, and RESTful APIs integration.
- Knowledge of modern authorization mechanisms, such as JSON Web Token.
- Experience with version control systems(Git).
- Dynamic code review using security tools such as Veracode and SD Element.
- Continuous learning mindset to stay updated with industry trends.

EDUCATION

Master of Computer Application, Pune University 2015 - 2018

VIT, Pune

Grade: 7.9

Bachelor of Computer Application, Pune University 2012 - 2015

Modern College, Pune

Grade: 7.1

SKILLS

Technical Skills	HTML5, CSS3, Javascript, Typescript, React, React-Hooks, React-Naive, Redux
Developer Tools	Jira, Git, GitHub, VSCode, SonarQube, VeraCode, SD Elements
Learning	NodeJS, MongoDB, AWS, Jenkins

EXPERIENCE

Sr. Software Developer Sep 2022 - Feb 2024

Johnson Controls

Pune, MH

Technologies: HTML, CSS, Bootstrap, React, React Hooks, React-Native, Jest.

Roles & Responsibilities:

- As a senior developer, I was involved in feature design, development, and estimations, collaborating with cross-functional teams to ensure high-quality, efficient code.
- A single contributor and mentoring/guiding the junior, reviewing PR
- Got the opportunity to work on the Mobile application, where I was part of the core development team as well as ensuring app code quality by using the SonarQube tool for technical depth and code smell.
- Written test cases for the Mobile and Web app using Jest.
- Playing a security champion role to ensure product security and code quality and giving necessary approvals before prod release.
- Create a release build containing the finalized code changes. This build should be thoroughly tested to ensure that it meets quality standards and does not introduce regressions or new issues.
- Assign a version number to the release according to the project's versioning scheme. Follow semantic versioning conventions to indicate the significance of changes (major, minor, patch).

Software Engineer

ITWox Inc

Jul 2020 - Aug 2022

Remote

Technologies: HTML, CSS, Bootstrap, React, React Hooks, React-Native, Jest, Stripe.

Roles & Responsibilities:

- Design the architecture of the mobile app, including the overall structure, components, and interactions between them. Consider factors such as scalability, security, performance, and usability during the design phase. Choose the appropriate architectural patterns and frameworks based on the requirements of the app.
- Implement the mobile app according to the designed architecture and agile plan. Follow best practices for coding, such as modularization, clean code principles, and coding standards. Collaborate closely with the manager and iterate on features based on feedback.
- Deploy the mobile app to app stores or distribution platforms, such as Google Play Store or Apple App Store. Follow the deployment guidelines and best practices for each platform. Monitor the deployment process and address any issues that arise.
- Worked with third-party libraries and frameworks such as Crashlytics, Stripe, and Google Places APIs.
- Translating designs and wireframes into high-quality code.

Software Developer

Varahi Technologies Pvt Ltd

Jan 2018 - Jun 2020

Pune, MH

Technologies: HTML, CSS, React, React-Hooks, React-Native.

Roles & Responsibilities:

- I learned React Native technology and concurrently utilized it to develop the TradersBiomass application individually.
- I have experience working on an LMS (Leave Management System) project where I served as a full-stack developer. In this project, I was responsible for developing backend services using Node.js and implementing the frontend using React.js.

AWARDS

Purpose Lead — Johnson Controls	Jun 14, 2023
Pat On The Back — Johnson Controls	Jan 10, 2023
Employee Of The Month — ITWox	Apr 17, 2021
UI Lead — Varahi Technologies	Dec 24, 2019

CERTIFICATIONS

React Native Udemy	Sep, 2020
React (Including Hooks, React Router, Redux) Udemy	Sep, 2022
Full-Stack JavaScript Development (MERN) LinkedIn	Aug, 2023
React: Testing and Debugging LinkedIn	Sep, 2023
